

# Loving your family starts with **CARING FOR YOURSELF.**

## Be there for your family.

*If you or your parents were born in Asia or the Pacific Islands,  
getting yourself tested for Hepatitis B is a good first step.*

Did you know that  
**1 in 12 Asian Americans  
have Hepatitis B?**

Up to 25% of people  
with Hepatitis B  
**develop serious  
liver problems.**

Hepatitis B is the  
**leading cause  
of liver cancer**  
for Asian Americans.

**But, treatments  
are available**  
that can save your life.

2 out of every 3 Asian  
Americans with Hepatitis B  
**don't know  
they are infected.**

**People with  
Hepatitis B often have  
NO SYMPTOMS.**

Hennepin County  
Public Health Clinic provides  
Hepatitis B testing, at low  
or no cost, by appointment.
